PROFILE

Hardworking college student with a motivated attitude and diverse skill set. Experienced in front-end programming and UI/UX design. Committed to contributing expertise in an interaction design. No formal work experience but eager to learn, willing to try, and ready to work hard.

EDUCATION

Sheridan College, Oakville ON Honours Bachelor of Interaction Design

September 2022 - Present

Camosun College, Victoria BC Interactive Media Developer Technology Diploma

September 2020 - August 2022

PROJECTS

Quickcal, Sheridan College September 2024 - Present

Utilized HTML, CSS, JavaScript, and Insomnia to develop a web-based application that host Edamam's Nutrition Analysis API for users to calculate nutrition intake easily.

Whack A Mole, Sheridan College March 2024 - April 2024

Built an interactive web-based video game utilizing HTML, CSS, JavaScript, and P5.js to operate with 3D printed product prototyping.

VU-Meter, Sheridan College February 2024 - March 2024

Applied HTML, CSS, JavaScript, and P5.js to build a web-based VU meter to help identify an ideal environment for audio recording.

Floating Island Escape, Camosun College February 2024 - March 2024

Built a Virual Reality puzzle-solving and platformer video game using Unity VR and C# for programming, Autodesk Maya, and Adobe Substance Painter for assets development in team of two. Agile Project Management also used to manage the project.

EXPERIENCE

Audio Mixing and Mastering Engineer, Freelance January 2022 - Present

- Mixing music and voice-over projects for clients using Reaper as the primary DAW.
- Applied Advance editing, EQ, compression and effects to deliver a professional and polished sound

Front-End Developer and UI/UX Designer, UpHealth June 2022 - August 2022

- Incorporated React Native to develop an alpha version UI for healthcare service applications and redesigned an enhanced existing UI to improve usability, visual appeal, and user experience.
